

ACKNOWLEDGEMENT

We wish to thank all reviewers who evaluated articles published in the 24.1 to 24.4 issues of the Brazilian Journal of Cardiovascular Surgery (BJCVS). I wish to convey my sincere gratitude and that of the Editorial Board to all who analyzed articles published this year and those who are analyzing manuscripts that will be published shortly. Without this essential voluntary work the BJCVS could not continue to publish such high quality articles, which are always analyzed within rigid criteria and most absolute scientific rigor.
